PAID FOR PENSIONS

Evans.

The Net Increase on the Roll Was 94.454 Certificates.

Ommissioner Evans of the bureau of pensions made public his first annual report last evening. He reviews the work of the work of the bureau of pensions made public his first annual report last evening. He reviews the work of the state by the republican committee. Equal good is thought to have resulted from this the year in his bureau and makes a number of important recommendations for the

consideration of Congress. Mr. Heath, first assistant postmaster gen-During the past fiscal year there were added to the rolls the names of 50,101 new of defeating the silver issue in Ohio. pensioners, and there were restored to the rolls 3,971 pensioners, who had been tion in Obio," said Mr. Heath to a Star previously dropped, a total of 54,072.

During the same period the losses to

the rolls were 31,960 by death, 1,074 by remarriage of widows and mothers, 1,145 by legal limitation (minors), 2,683 for failure legal limitation (minors), 2,683 for failure to claim pension for three years, and 3,560 for other causes, an aggregate of 41,122.

The whole number of pensioners on the rolls June 39, 1897, was 976,014. The pet gain over the previous year was 5,336. rolls June 30, 1897, was 976,014. The pet gain over the previous year was 5,336.

'It will thus be seen that the pension roll has not yet begun to show any diminution, though it has been anticipated by my predecessors in office that such would be the fact," says Commissioner Evans. Seven widows of revolutionary soldiers

and nine daughters of revolutionary sol-diers are still on the rolls.

During the year 34,454 pension certificates were issued, of which number 50,101 were original allowances and the balance were reissues, increases, restorations, renewals, etc. Of this number, 14,671 certificates of various classes were held in this bureau until July 1, 1897, and are, accordingly not reading to the past fiscal ordingly, not credited to the past fiscal

year.

During the same period 76,234 claims of various classes were disallowed. This number, however, does not include claims which were made for higher rates of pension.

The amount disbursed for pensions by

the pension agents during the year was \$139,749,242.12, and the amount disbursed by treasury settlement was \$150,475.23, a total of \$139,949,717.35. This exceeds the amount disbursed during the fiscal year 1896 by the sum of \$1,584,480.18. If the 14,671 certificates which, as before stated, were held in this bureau until July 1, 1897, had been mailed to the pension agents during the fiscal year they would have received first new years are surprised to \$100. had been mailed to the pension agents during the fiscal year they would have required first payments amounting to \$2.191, 694, besi-les the additional annual value, which would also have been a charge upon the appropriation. This amount added to that actually disbursed makes an aggregate of \$141,300,936. The appropriation for the payment of pensions for the fiscal year 1897 was only \$140,000,000. The average annual value of each pension at the close of the year was \$133.17. The average annual value of each pension under the general law was \$162.04; each under the act of June 27, 1890, was \$109.25. The aggregate annual value of all pensions at the close of the year was \$129,795,428. This, of course, excludes the cases that were held up. There were 44 original and 7 duplicate bounty land claims admitted and 145 original claims of this character rejected. Referring to the consolidation of agencies, Commissioner Evans recommends that the executive order of July 14 last, suspending the operation of the order of February 6, 1897, the latter of which provided for the consolidation, be continued indefinitely, and adds: consolidation, be continued indefinitely, and

"I am still of the opinion that the reduction and consolidation of the pension agencies at this time is not only unnecessary, but inexpedient; that the disruption of business in the agencies, the business for the Interior Department, and the general inconvenience of the service would more than offset the anticipated saving to the government."

Attention is called to a significant saving in rentals of agencies, a policy still being continued. In conclusion, the report recommends the publication of a complete list of pensioners, and of the passage of a law to the end that no pension be granted to the widow of any soldier that shall marry hereafter. "I am still of the opinion that the re-

A large audience assembled in the hall of Columbian University last evening and listened with interest to Mr. Robert T. Hill of the United States geological survey, whose theme was 'Jamaica and Its Rela-

whose theme was 'Jamaica and Its Relations to Antillian Developments."

The lecture was given under the auspices of the National Geographic Society. It was illustrated by stereopticon views of life on the island and physical features.

In addition to what might be termed the technical portion of the lecture, Mr. Hill spoke of the people, their customs and the condition of the colored people under English rule.

CREDIT TO FARMERS

They Kept Ohio From Going for

VIEWS OF FEDERAL OFFICIALS

Messrs. Bingham and Heath Tell What They Saw in the West.

SEC'Y WILSON'S SPEECHES

Mr. Brigham, assistant secretary of the Department of Agriculture, has returned from Ohio, where he was actively engaged

for three weeks in campaign work.

Mr. Brigham is of the opinion that Mr. Hanna will have no trouble in retaining his seat in the Senate. He admits that the contest in his state was an exceedingly

The credit of keeping the state in the republican ranks, he says, is due to the farmers, who voted to uphold the administration. "It was declared in Ohio," the assistant

secretary continued, "that to Secretary Wilson was due the honor of carrying more votes for the republican ticket than any other one man who was doing campaign work.

"I heard this stated, not once, but many times, and reasons were given to show why this was the case.

"It was the tarmers' vote that did the business beyord a doubt. Everywhere the Secretary spoke during his week's sojourn Secretary spoke during his week's sojourn in the buckeye state he was received with the greatest enthusiasm by the agriculturists. They hung upon his words and punctuated his address with loud and frequent applause. He does not claim to be an orator, but he spoke to them in a plain, straightforward manner which had its effect, as was evidenced when the ballots were counted. He indulged in no vituperation, put simply put forward the pledges of the administration, and deciared that they had been and would be further fulfilled. He told the farmers of the work which has beer so far done by the department of which he is the head, and assured his hearers still further that the administration would do all intertions of the soft and the farmers of the work that he administration would do all intertions. his hearers still further that the adminis-tration would do all in its power to extend

the markets, the crops more diversified and the business more profitable. "The Secretary spoke in a number of the counties in which it was feared there might be a defection from the republican ranks. In all of the counties where he addressed the farmers republican majorities were given, and some of them had previously given democratic ones.

"The Secretary's visit to the state fair in

Columbus in September and his speech there, I am convinced, had much to do with the state going republican. More than 50,000 persons were present, and his words seemed to have great weight with his hearers. "His presence in Ohio on both occasions

I am certain, had the greatest possible good effect for the republicans."

Mr. Brigham's epinion was echoed by a number of others, who were conversant with the Ohio situation, and it was learned that Secretary Wilson had received a num

Silver Beaten by the Farmers.

eral, also ascribes to the farmers the credit "In speaking of the result of the elecreporter today, "the fact that it was only in the country that the free silver issue got to the front should not be overlooked. Very little was heard of that issue or the policies of the administration in the large passionately considered and voters were largely guided by these issues at the polls. There is no question that the administration is popular in Ohio and free silver is less popular than last year. This is clearly shown by the very largely increased majority in the country districts. Had it not been for the increase of republican votes in the small cities and in the country, among the farmers especially, we would certainly have lost the legislature.

"There is very much in this election in Ohio from which President McKinley can take courage. Wherever he or his administration was discussed the republican majority was increased."

jority was increased."
"Is there any doubt about Mr. Hanna's election to the Senate?" Mr. Heath was asked. Senator Hanna's Prespects. "I do not believe," he replied, "that by any sort of machination the defeat of Senator Hanna can be accomplished. When ballots are counted in Ohio they are immediately destroyed. I presume that all of the baliots in this contest, whether they were cast in democratic or republican precincts, have already been destroyed, and therefore the returns made by the election officers must stand. There is no opportunity, if any one desired to be dishonest, to change or alter the returns. These returns row give Senator Hanna a clear majority on joint ballot of five. I do not believe the

official returns will materially change those received unofficially. "This talk about opposition to Senator Hanna among republican members of the legislature is the talk of free silver demo-crats, who are trying to create a disturbance in the republican party, and it has no real foundation. Of course, friends of Mr. Mc-Lean will do everything they possibly can, even though they see no prospect of his election, to make trouble among republi-cans, and they will stop at no assertion to put the worst possible phase upon the situ-ation. Not only was every republican nominated for the legislature known to be nominated for the legislature known to be a tried and true republican, but I am thor-oughly satisfied that Senator Foraker will exert every influence he can to see that his personal friends, who are members of the legislature, stand firm for Mr. Hanna and pay him the highest compliment in their nower."

LOGAN MADE THEM APOLOGIZE

Show. A special to the New York World from Chicago last night says: John A. Logan has vindicated his title to "Supreme Boss of the Herse Show." The Illinois board of

agriculture has been making it very unpleasant for Logan, but he made them bow tc his will last night.

He has been ergaged as manager of the show and had made it a success. The attendance has averaged 15,000 a day. The state board grew jealous and annoyed, negged, ridiculed and "lambasted" Logan

negged, ridiculed and "lambasted" Logan until his good nature was gone. He had been insulted, mistreated, hooted and sat upon. He had seen the door of his office nailed with spikes by men who said he was permitting persons to sneak into the show. He had seen his special guards sent home with an essurance from the fat-stock men that they might whistle for their pay. Last night he organized a strike. Ali the exhibition employes and fashionables were with him. He said the show would stop right then unless the state board signed an apology which he dictated and gave him full power as manager. There were 15,000 people in the building. After a half-hour wait the board signed a most abject apology, took the nails out of Logan's door and acknowledged him as boss.
